

## FLEXANTENNA

FLEXANTENNA offers best-in-class tag read performance across tag orientations. Focused linear antennas reduce cross reads and blins spots.

Possible to install individual units or combine multiple units as needed.

Floor mount and stack to cover dock doors offer a flexible installation. Pole mount to from conveyor tunnels. Flush mount to walls and ceilings to maximize space. Attach to AGVs and vehicles to read on-the-go.

With rising costs of shipping and labor, FLEXANTENNA is a clear winner with reduced costs to transport, deploy, and support. The modular design reduces size and weight allowing for standard parcel shipments and single person installation.

### FLEXANTENNA RF PERFORMANCE

- Focused Multi-Liner Beams
- FCC and ETSI Band Coverage
- Captures All Orientations
- Strong Near-Field Performance

### FLEXANTENNA READ CHARACTERISTICS

- Zone Control
- Compatible with Leading RFID Readers
- Integrated Antennas - No Adjustment Required
