

CREATE, CONNECT, PROTECT

Introducing the next step in modular RFID loss prevention technology and high detection accuracy with a seamless and discreet design that can be tailored to your needs.

Based on your level of shrinkage across individual outlets, you can tailor your SFERO solution and adapt the level of protection for each retail environment in your portfolio as your store and business grow and change, ensuring you maximize your business revenues.

POWERFUL DETECTION CAPABILITY

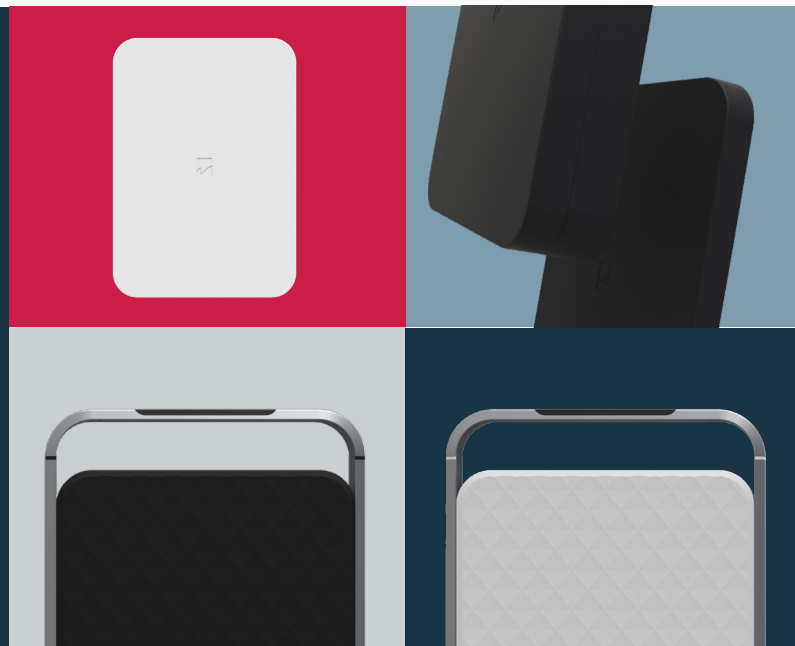

In many cases greater than 95%, that protects stores, reduces shrinkage and maximizes revenues.

A FULLY CUSTOMIZABLE MODULAR SOLUTION

Can be tailored to individual stores depending on customer needs.

AN AGILE RFID SOLUTION DESIGN

Developed to seamlessly integrate with customer visual merchandising that provides a clean open entrance without visual impact.

MODULAR DESIGN TO
SUIT ANY STORE

COVERS UP TO 10M ENTRANCE
WIDTHS AND 3.5M HEIGHTS

CAPABLE OF GREATER THAN
95% DETECTION RATE
